#### SUMMARY

This dataset is a work in progress. It includes data that was screen scraped using jsonlite and XML libraries in R and an open API through OMDb from the IMDB website. Movie IDs to help gather much of this data come from one or two Kaggle projects. There is a workflow from original cobbled together spreadsheets to the final product with 27 variables and over 5000 observations.

More detail on this data will be provided later in the project this data was gathered for. Stay tuned ...
